

GOVERNMENT OF ODISHA

Electric Vehicle Cell, Commerce & Transport Department

Letter No. CT-EV-0118/2026 | Dated: 22-May-2026

Subject: Extension of the Odisha Electric Vehicle (EV) Policy, 2021 up to 30th September 2026

In continuation of this Department's earlier notification dated 15-March-2021 promulgating the Odisha Electric Vehicle Policy, 2021, and having reviewed the progress of EV adoption incentives, charging infrastructure rollout, and manufacturing investment commitments across the State, the Government has decided to extend the applicability of the Policy up to 30th September 2026.

The extension shall apply to all existing incentive categories, including demand incentives for two-wheelers, three-wheelers, and four-wheeler electric vehicles, capital subsidy for public charging infrastructure, and SGST reimbursement for EV manufacturers registered within the State.

The Regional Transport Offices (RTOs) in all districts, including Khordha, Cuttack, Sundargarh, and Mayurbhanj, shall continue to process road-tax and registration-fee exemptions for battery electric vehicles as per the existing Policy framework without requiring fresh administrative approval.

The Directorate of Industries shall continue to process capital investment subsidy claims from EV component manufacturers under the Single Window clearance mechanism, subject to the conditions laid down in the original Policy document.

All Urban Local Bodies are directed to expedite the identification of land parcels for public EV charging stations, particularly along State Highways connecting Bhubaneswar, Cuttack, Rourkela, and Berhampur.

A comprehensive review of the Policy's outcomes, including total EVs registered, charging stations commissioned, and direct/indirect employment generated, shall be placed before the Cabinet prior to the expiry of the extended period.
